You may want to try an <u>Advanced Search</u> for additional options.

Please review the <u>Quick Tips</u> below or for more information see the <u>Search Tips</u>.

Quick Tips

- Enter your search terms in <u>lower case</u> with a space between the terms.

        sales offices

    You can also enter a full question or concept in <u>plain language.</u>

        Where are the sales offices?

- Capitalize <u>proper nouns</u> to search for specific people, places, or products.

        John Colter, Netscape Navigator

- Enclose a <u>phrase</u> in double quotes to search for that exact phrase.

        "museum of natural history" "museum of modern art"

- Narrow your searches by using a **+** if a search term <u>must appear</u> on a page.

        museum +art

- Exclude pages by using a **-** if a search term <u>must not appear</u> on a page.

        museum -Paris

Combine these techniques to create a specific search query. The better your description of the information you want, the more relevant your results will be.

        museum +"natural history" dinosaur -Chicago
